Computational Social Science • Digital Culture & Games • Digital Humanities

Education

National University of Singapore

M.S. Candidate

Research: computational social science, game studies, digital humanities

Singapore, Singapore

2025 – Present

Ocean University of China

B.A. in Political Science and Public Administration

Outstanding Graduate | Chuying Excellence Scholarship

Qingdao, China

2021 – 2025

Thesis: *A Text-Mining Analysis of Crisis Evolution in China's Major Disaster Accidents* (Advisor: Xue Wang).

Analyzed 30 accident investigation reports (2010–2025) using LDA topic modeling and case studies to trace institutional, spatial, and social risk mechanisms.

Publications & Manuscripts

CONFERENCE CONTRIBUTIONS

Shuo Wang and Bin Yi Yang. 2026. Governing Platform Entry: ASEAN States and the Politics of Chinese Esports Infrastructure. Selected for the SEASIA 2026 conference programme, Nanyang Technological University, Singapore.

CONFERENCE TALKS & POSTERS

Shuo Wang and Xue Wang*. 2026. **Alone in the Crowd? Urban Population Density and Loneliness Expression on Chinese Social Media.** Oral presentation, IC2S2 2026.

Shuo Wang. 2026. Who Decides What's Toxic? How Player Identity Shapes Social Perception of Toxicity in Online Game Communities. Accepted poster, NLPercep 2026 (ICWSM workshop).

UNDER REVIEW

Hongyang Zhang, Yu Lu Jin, and Shuo Wang*. **Institutional Blame-Shifting, Cultural Context, and the Erosion of Collective Efficacy: An LLM-Based Simulation and Survey Approach.** Under review at *Social Networks* (first round).

* Corresponding author

Research Experience

Research Assistant | CALM Lab

National University of Singapore, Singapore

Advisor: Prof. Yumeng Hou

2026 – Present

Built a Qwen3-VL extraction and cleaning workflow for text and images from 26 Chinese martial arts works, using mixed scanned pages and OCR. Preparing one paper on textual reuse and conceptual change based on the resulting corpus.

Research Assistant | Institute of Public Safety and Risk Governance

Ocean University of China, Qingdao

2023 – 2025

Developed machine-learning risk-classification and early-warning models (scikit-learn, XGBoost) for public-safety scenarios; contributed to NSSFC 21AZZ014 and Shandong NSF ZR2023QG090.

Research Assistant | Sustainable Guidelines Research Center
Central University of Finance and Economics, Beijing

May – Aug 2023

Consolidated 300+ county-level climate-simulation datasets (Python/SQL) and synthesized the literature into two policy briefs.

Research Volunteer | Sustainable Development Laboratory
Duke Kunshan University

Aug – Oct 2023

Classified 500+ infrared-camera images (12 species, 92% accuracy) and mapped human–wildlife interaction patterns in GIS.

Selected Research Project

Net-Zero Building Game at SDE4

In progress

Developing a resource-management game prototype that integrates realistic energy simulation to explore trade-offs between electricity use and comfort.

Industry Experience

Strategy Product Intern | Bilibili – Data Strategy Group
Product Planning Intern | Tencent – Interactive Entertainment Group
ACGN Operation Intern | Sina Weibo
Operation Intern | Hero Games – Nebula Business Unit

Apr – Jun 2025
Jul – Oct 2024
Oct 2023 – Jun 2024
Jun – Sep 2023

Teaching Experience

Teaching Assistant | Academic English, Ocean University of China
Teaching Assistant | Logic, Ocean University of China

Winter 2024
Spring 2022

Awards, Honors & Scholarships

Outstanding Graduate, Ocean University of China
Chuying Excellence Scholarship, Ocean University of China

2025
2024

Skills

Methods: NLP & text mining (LDA), machine learning, VLM data extraction, agent- and LLM-based simulation, multimodal computer vision.

Tools: Python • SQL • Stata • SPSS • GIS • Git

Languages: Mandarin (native) • English (advanced) • Spanish (intermediate)
